SUMMARY

UX/Product Designer and former healthcare provider with 5 years of experience solving complex, people-centered problems. Skilled in applying psychological insights to create inclusive, user-centered solutions with empathy and creativity.

EXPERIENCE

UX/UI DESIGNER

Dec 2025 - Present

Reimagining Phillips | Independent Case Study

San Diego, CA

- Conducted background research, user interviews, and quantitative analysis (task time, click counts, app ratings) to identify key pain points in the auction experience.
- Synthesized qualitative and quantitative data through affinity mapping and thematic analysis to define core problems and guide solution directions.
- Designing wireframes in Figma and preparing usability tests to validate proposed improvements.
- Documenting an end-to-end case study covering research, ideation, design, testing, and planned iterations.

UX/UI DESIGNER

Dec 2024 - Aug 2025

WellNest | Health & wellness app

San Diego, CA

- Identified organizational and self-care challenges faced by parents of children with special needs
- Designed an end-to-end app solution through user research, interviews, user flows, information architecture, wireframing, prototyping, and iterative testing.
- Delivered a functional prototype that received positive feedback for intuitive user flow and overall user experience.

OCCUPATIONAL THERAPIST

Self-employed - San Diego

Feb 2023 - Present

Total Education Solutions - San Diego, CA

Jan 2023 - Aug 2023

Joy Center (Contract) - Gricignano, Italy

Jul 2022 - Sept 2022

Dynamic Therapies, Inc. - Arcadia, CA

May 2021 - Jul 2022

- Assessed influence of diagnosis on children's cognitive, emotional, and behavioral development, as well as family dynamics and routines.
- Designed individualized treatment plans that supported motivation, engagement, and habit formation in daily life.
- Collaborated closely with families to observe patterns, identify barriers, and co-create strategies grounded in human behavior.
- Built strong communication, analysis, and problem-solving skills through multidisciplinary teamwork and family-centered care.
